ZSXZ [2023] No. 3

---

## **Notice on the Convening of the 6th International Conference on Dredging Technology Development & Shenzhen International Dredging Technology and Equipment Exhibition 2023**

All member companies and related companies:

International Conference on Dredging Technology Development of China is an industry event held by China Dredging Association, in conjunction with WODA Eastern Dredging Association, dredging-related enterprises, universities, research institutes and other institutions. Since its first convention in November 2003, it has been successfully held five times respectively in Shanghai, Guangzhou, Tianjin, Chongqing and Beijing. It's an event where industry elites from all over the world are gathered to discuss the development trend and latest technological achievements of the world dredging industry, focusing on the cutting-edge technology of the dredging industry, as well as related fields such as dredging construction, intelligent dredging, ecological dredging and equipment manufacturing. The event has also received high attention and support from

government departments.

In order to fully display the latest technology products and equipment of the dredging industry at home and abroad, the Association intends to hold the "Sixth International Conference on Dredging Technology Development" (hereinafter referred to as the Conference) in a hybrid of online and on site, where industry experts and scholars at home and abroad are invited to discuss issues such as industry policy trends and technological development trends.

Due to pandemic concerns, the "Shenzhen International Dredging Technology and Equipment Exhibition 2022" originally scheduled to be held at the Shenzhen Convention & Exhibition Center was postponed to 2023, with its name changed to "Shenzhen International Dredging Technology and Equipment Exhibition 2023" (hereinafter referred to as "Equipment Exhibition"), which will be held at the same time as the "Sixth International Conference on Dredging Technology Development". The Equipment Exhibition will take place in a dedicated exhibition hall of the "Shenzhen International Water Technology Expo 2023" (hereinafter referred to as "the Expo") sponsored by Guangdong Hydraulic Engineering Society, Water Resources of Guangdong Province Hydropower Technology Center and Shenzhen Water Service Society, etc. We sincerely invite relevant technology products and equipment manufacturing enterprises to sign up

for the exhibition.

## I. Subject of the Conference

Subject of the Conference: Dredging Innovation & Green, Low-carbon, Sustainable Development

## II. Time & Venue

Time: Registration and exhibition on July 11, 2023, full-day conference on July 12

Venue: Shenzhen Convention & Exhibition Center (Fuhua 3rd Road, Futian District)

## III. Organizers

Organizer: China Dredging Association

CCCC Dredging (Group) Co., Ltd.

Co-organizers: World Organization of Dredging Associations

China Harbour Engineering Company

International Division of CCCC Dredging (Group) Co., Ltd.

Contractor: CCCC Guangzhou Dredging Co. Ltd.

## IV. Agenda

Date	Time	Content
Shenzhen International Dredging Technology and Equipment Exhibition 2023		
11th	9:30-18:00	Registration for the Conference and the Exhibition
	10:00-11:30	Opening Ceremony of the Shenzhen International Water Technology Expo 2023
		Tour Activities Visit the Shenzhen International Dredging Technology and Equipment Exhibition 2023
	18:30-20:00	Dinner

The Sixth International Conference on Dredging Technology Development of China		
12th	9:30-12:00	Speeches by the leaders
		Keynote speech
		Technical communication (1)
	12:00-14:00	Lunch
	14:00-17:30	Technical communication (2)
		Technical report by international guests
18:30-20:00	Dinner	
13th	9:30-17:30	Visit the Shenzhen International Dredging Technology and Equipment Exhibition 2023 and the return trip

Please refer to the follow-up notice for more details about the time and agenda.

## V. Main Contents of the Conference

(1) The Conference will be held at the same time as the International Dredging Technology and Equipment Exhibition, displaying major dredging engineering equipment, project construction achievements and breakthroughs in dredging technology at home and abroad in recent years;

(2) Get an insight into the development trend of domestic and overseas dredging markets in the post-epidemic era;

(3) Chart the course of transformation and upgrading of the dredging industry to ecological environmental protection, drainage basin management and marine industry;

(4) Learn about the long-term impact on the dredging industry brought by increased international turmoil and demands for carbon peaking and carbon neutrality.

6. Requirements for On-site Communication Report and

## Paper Submission

We sincerely invite all members of the World Organization of Dredging Associations (overseas) to participate in the conference via video; we sincerely invite dredging experts, scholars, and engineering technicians to report on the spot; we sincerely invite relevant companies in the dredging industry to organize product and technology exhibitions. Please contact us and register in time if you wish.

The on-site communication report must focus on the theme of the Conference "Dredging Innovation & Green, Low-Carbon, Sustainable Development". The slideshow of the communication report shall be in 16:9. Please make sure to send the reporter's name and contact information, the slideshow of the report and a brief introduction to the reporter (with a photo) to the mailbox of the Association before May 31, 2023.

Experts, scholars and engineering technicians in the dredging industry across the country are invited to provide relevant technical papers. The Secretariat will invite experts to discuss the submitted papers and select those to be communicated at the conference. Please send the full text of the paper to the mailbox of the Association before May 31, 2023.

Companies in the dredging industry are expected to fill in the "Solicitation Form for Scientific and Technological

Achievements" and "Solicitation Form for Project Supply and Demand Information". Please refer to attachments 4 and 5 for details, and the Association will arrange the connection in due course.

## **VII. Main Contents of the Exhibition**

(1) Display advanced dredging equipment, the latest technology products, smart water service development, as well as technology products, equipment and technologies regarding water treatment and water purification, water supply and drainage, flood control and drainage, water conservancy and hydropower, water environment management, water and soil conservation;

(2) Hold special technical communication forums;

(3) Establish cooperation

## **VIII. Booth Fee Standard**

Standard booth in standard area, 16,800 yuan / booth (9 square meters);

Raw space booth: RMB 1,800/square meter (minimum rent of 36 square meters).

The above fees will be collected by Minsheng Exhibition (Shanghai) Co., Ltd., the contractor of the Equipment Exhibition. Shenzhen International Water Technology Expo charges no registration fees.

## **IX. Registration for the Conference**

Enterprises that intend to participate in the Exhibition,

please fill in Attachment 2 and send it to Secretariat of the Association;

Contact person: Ji Zeming Tel: 13384366286

Companies that intend to join the Association, please fill in the "Application for Membership" and see Attachment 6 for details;

Contact person: Wang Jie Tel: 18515222713

Contact person: Yang Sichen Tel: 13149877278

International representatives who intend to participate in the video conference and the communication, please contact the China Dredging Association and fill in the registration form (see Attachment 3), and send it to the mailbox of the China Dredging Association;

4. Participants of the 6th International Conference on Dredging Technology Development, please use WeChat to scan the QR code to register for the Conference.

Attachments: 1. Notice on the Convening of the Shenzhen International Water Technology Expo 2023

2. Registration Form of Shenzhen International Dredging Technology and Equipment Exhibition 2023

3. Registration Form for International Participants
4. Solicitation Form for Scientific and Technological Achievements
5. Solicitation Form for Project Supply and Demand Information
6. Application for Membership
